

**seattle
chapter
quarterly**

WELCOME TO ATLANTA!!

The Seattle Chapter members would like to present this copy of our chapter Quarterly to you for your enjoyment. The Seattle Chapter is of course interested in subscribers, but more importantly the Chapter is concerned with the availability of information to modelers. The Seattle Chapter has been using our local publication not only to help our members (approximately 100) become more proficient, but to encourage and recruit new members to IPMS. We feel a strong local chapter benefits IPMS-USA as well, and in turn contributes to the art of scale modeling.

We hope you will enjoy the Seattle Chapter Quarterly; if you have any questions, comments, criticisms, subscriptions or contributions, please drop the editor a line.

This free copy of the Seattle Chapter Quarterly was donated by SCALE CRAFT and AMERICAN EAGLES .
