

# IPMS SEATTLE

Next Meeting:

Saturday, November 19  
10:30 a.m. - 1:30 p.m.

## INTERNATIONAL PLASTIC MODELERS' SOCIETY

This meeting will host our bi-monthly contest and also an old kit show! This time, let's bring unbuilt kits! How about the oldest and/or most interesting old kit you have. Be sure to take precautions, possibly clear, plastic food wrapping over the open box, or attach the parts trees to some type of board or something; that way no one should have a problem with lost parts. This should be lots of fun!!!

Last meeting was really interesting: Matt Hargreaves gave a very good demonstration on silver finishes. I'm sure that all that listened and watched have a much better idea of what goes into a silver finish.

We also discussed the elections coming up in December and someone asked me if I would accept a nomination. I said, "No. A new person with new ideas should take over." This will make an interesting change of pace for all of us. Our present Secretary/Treasurer has asked if we can split his office. If someone would like to be Secretary, this is your signal to let us know.

Bob Doran can still fix up your T-shirt or light jacket with an IPMS logo --- only \$4 each for 3½ or 8 inch diameters.
